

The individual iPhone hotel app for your guests.

TOURIAS tips&deals
Mobile Apps & Mobile Internet Solutions

The must-have for your e-marketing:

- Put your hotel on the iPhones of your customers with its own application and customised branding
- Availability in the Apple App Store - show up in search queries (city, hotel,...) and generate additional bookings
- Improve customer retention and increase additional business and repeat bookings with subtle and optimal communication between your clients and the appropriate departments (Push functions). With just one extra booking a month the costs are already recouped
- Promote your hotel to a high-value customer base
- Ready to go: Simply send us your logo, colour scheme and department contact details - we will generally create the application within two weeks

Service & information at hand

- Text messaging service for your guests
- Listing in the Apple App Store
- Hotel information for your guests and prospective clients
- Content in German and English (further languages optional / on availability)
- Travel guide in 8 categories
- City map with information on points of interest
- Weather forecast
